Stutteri Ask – the leading Danish showjumper stud

Since 1993 Stutteri Ask has had a stallion station with a broad range of showjumper stallions boasting increasingly interesting international bloodlines.

Apart from offering a first-class stallion station they breed and educate their showjumpers from youngstock themselves. Up through the decades they have developed some very successful showjumper mare lines through the use of E.T. and ICSI. Among those many have been champions at Danish Warmblood Elite Mare Show and saddle gradings as well as top-level showjumpers through generations.
